SPOTLIGHT ON BOSTON

See us at the
NFDA Expo!

DST's Booth 626 will be the scene for all kinds of excitement. Highlighting the DST exhibition will be the introduction of **PrepArm**, an auxiliary product for localized air extraction in preparation rooms.

And that's not all. We will also present **Interior Elements**, a free color palette program that enhances our Premier Source design service.

More? Sure. A special discount on our Premier Source design fee. Plus fun, games and prizes with Wii.

What else? Show Biz- an ongoing video presentation featuring prep rooms by DST.

Come see us. We look forward to seeing old friends and making new ones.

INTRODUCING PREP ARM

DST is proud to bring you **PrepArm**, a new ventilating product to make your work place safer.

PrepArm is an exhaust system for capturing noxious fumes at the source. A transparent hood, not shown, attaches to the arm. An adjunct to the PrepAir system, PrepArm is a solution for localized needs.

WHAT'S HOT

Premier Source design service is DST's flagship product. It provides interior architectural design of the prep room, combined with OSHA compliant products including our exclusive PrepAir HVAC system, and custom cabinetry.

During the show, sign up for a \$500 discount off the design fee. If you can't make the show, call or email info@dstlimited.com and we'll give you a \$250 discount just for asking.

Offer Ends December 2009

A WORD FROM OUR LILY

Lily, our mascot, took Marjori Todd on a mountain hike recently. Sadly, in a scuffle with some other dogs who took a shine to Lily, Marjori took a spill. At the show, you may see her in the latest foot fashion, an orthopedic boot.

Lily, in her Ben Franklin mode, muses:

"A true Friend is the best Possession"
